

Spot weld drill Model RC6453

Item no.: 8951076013

Spot weld drill for bodywork and sheet metal processing professionals for the precise and convenient removal of spot welds

- The milling cutter is automatically pressed on to the sheet metal when the tool is started up and ensures precise removal of the spot weld
- Milling depth adjustable by 50 microne steps

Drill for RC6453

Item no.: 8951011524

Double suction cup set Model STS71K

Item no.: 8951011087

Two double suction cups for transporting, installing and removing windscreens and other glass panes. Comes with a strap that holds the windshield in place while the adhesive dries.
(max. 80 kg)

"UNICUTTER" – Windscreen removal tool Model RC6605RE

Item no.: 8951074005

Universal cutting, scraping and sawing device for removing car windscreens.

Oscillation cutter /glass removal tool

Model RC6606RE

Item no.: 8951174000

Perfect for any car and body shop that needs to quickly and professionally replace vehicle windows

Glass removal blade GR SET

Item no.: 8956001327
Set comprises
U-shaped and
straight blades.
(7 blades)

Windscreen removal tool Model RC6610

Item no.: 8951074000

Exhaust air at the rear end of the tool for high occupational safety

Glass removal blade

Tyre filler calibrated with torque plug nipple, model RF02G

Item no.: 8951011019

Professional tire inflator with 500 mm hose and torque plug nipple. Calibrated pressure display 0 - 10 bar. Lightweight design with analog 60 mm pressure gage and shock protection.

Push button to lower tire pressure and lever to inflate

Tyre filler Calibrated, model RFP04G

Item no.: 8951012306

Calibrated high-flow tire inflator, EEC recognized and certified in accordance with instruction no. 71/316.

Easy to use with a lever to inflate and a button to deflate.

Blow and suction gun Model RC8116

Item no.: 8951070004

Robust metal housing with 4 different nozzles, suction hose and dust bag made of fabric. Ideal for residue-free suctioning when repairing tires.

Air pressure: 6 bar

Air connection: 1/4"

Paint gun Model RC8102-14

Item no.: 8951070002

0.6 l plastic paint cup, equipped with 1.4 mm nozzle

- Beam shape adjustable (round or narrow, rotatable nozzle head)
- Finely adjustable operating lever
- Air volume adjustment
- Quantity limitation

Grease gun, filled Model RC8150F

Item no.: 8951012205

Particularly suitable for lubricating angle gears and impact mechanisms.

Grease gun filled with 2 cartridges model RC8150

Item no.: 8951012204

Lubrication gun/grease gun RC8150, incl. 2 cartridges (filled), 168 x 34 mm

5 replacement cartridges model RC8150K

Item no.: 8951012206

Refill cartridges
(5 cartridges for RC8150)

Cleaning gun Model RC8011

Item no.: 8951070040

The RC8011 pneumatic cleaning gun is perfect for workshops that deal with underbody protection.

Cartridge gun Model RC8000

Item no.: 8951070000

With steel cylinder for cartridges up to 310 ml and a size up to 220x50mm.

Grease gun Model RC8132

Item no.: 8951000059

The RC8132/RC8141 range of grease guns should be part of every workshop for general maintenance and lubrication work

Grease gun Model RC8141

Item no.: 8951070090

- For cartridges 215 x 50 mm (400 ml), bags or direct filling via a lubricant tank
- Progressive trigger for even distribution of lubricant (continuous or point by point)

Cleaning gun Model RC8035

Item no.: 8951070050

Spray gun for multiple applications:

Underseal spray gun for 1 l cans with screw thread

Cavity sealing gun with nozzle tube for 1 l cans

Cleaning spray gun with 1 l tank and nozzle tube with adjustable spray nozzle

Disinfectant gun for air conditioning and air ducts with tanks

Sandblaster Model RC8112

Item no.: 8951070003

Portable blasting material container (10 l) with a long (5 m) blasting material suction hose for connection to the container and gun.

Suitable for structural steel, wheel rim repairs, bodywork, car, commercial vehicle, truck repairs, mechanical engineering and industry.

Air blow gun RC8240S

Item no.: 8955000009

RC8241S

Item no.: 8955000011

RC8241

Item no.: 8955000010

RC8240

Item no.: 8955000026

The safety nozzles prevent paint scratches and are significantly quieter than standard nozzles. Large airflow even at low pressure - twice as powerful as a standard air gun. Gentle start-up thanks to an easily adjustable valve. Stable air inlet with brass internal thread.
