

Workshop presses

Hydraulic workshop presses are indispensable in the workshop and many industrial companies for special precision work, such as removing and replacing ball bearings, bending pipes or profiles or straightening bent parts. The professional presses can be bench mounted or installed on the floor with shims for perfect stability. Some of our hydraulic presses have various additional functions such as lateral cylinder adjustment, two speed levels - for fast approach and powerful pressing - and foot control.

New 2-speed automatic pump for WP15/WP20S/WP30P/WP50P

Easier to use, no need to change speed manually.

Model WP15

Item no.: 8951000064

15 tons

Model WP20S

Item no.: 8951000065

20 tons

Model WP30P

Item no.: 8951000071

30 tons

Model WP50P

Item no.: 8951000072

50 tons

Model WP75P

Item no.: 8951000170

75 tons

Model WP100P

Item no.: 8951000171

100 tons

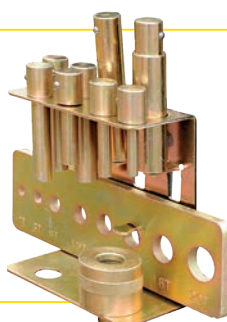

Model	WP15	WP20S	WP30P	WP50P	WP75P	WP100P
