

71458**Hack saw**

- the frame material is A3 and size is 4x19mm
- together with blade is appropriate for cutting steel, non-ferrous metals and plastics
- possibility to grip all kinds and widths of blades
- blade lenght 300 mm
- total lenght 510 mm

	L1	L		
71458	300	510	400	6.93

71456**Hack saw with rectangular profile**

- A3 metal square frame with aluminium alloy handle
- together with blade is appropriate for cutting steel, non-ferrous metals and plastics
- possibility to grip all kinds and widths of blades, at 0° and 90°
- blade lenght 300 mm
- total lenght 400 mm

	L1	L		
71456	300	450	370	9.19

71457**Hack saw with tubular profile**

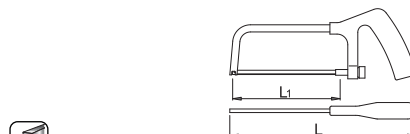

- A3 metal round frame with aluminium alloy handle
- together with blade is appropriate for cutting steel, non-ferrous metals and plastics
- possibility to grip all kinds and widths of blades, at different angle
- blade lenght 300 mm
- total lenght 400 mm

	L1	L		
71457	300	450	310	6.19

7753P**Hand saw Junior**

- plastic handle
- replaceable blade

	L1	L		
621778	150	260	151	7.55

7753P.1**Replaceable blade Junior**

- recommended for precise cuts in metal, steel, copper, plastic, plexiglass, non-ferrous
- length: 150 mm
- tooth pitch: 32 TPI
- set 10 blades

	L1	Pieces		
7753P.1	150	10	45	0.86

7751.1**Replaceable blade**

- material: HCS
- dimension 300x13x0.65 mm
- 24 TPI teeth
- teeth hardness: 64-65 HRC
- for universal use

	Dimensions	T		
900591	300x13x0.65	24 TPI	25	0.59

7751.1/5**Set 5 replaceable blades**

- material: HCS
- dimension 300x13x0.65 mm
- 24 TPI teeth
- teeth hardness: 64-65 HRC
- for universal use

	Dimensions	T		
900594	300x13x0.65	24 TPI	125	4.16

770**Perforating punches**

- for perforating: rubber, metal sheet, leather
- material: 45 carbon steel
- with tube drawn
- hardness: 48 - 58 HRC

7770S9**Set of perforating punches 2.5-10 mm / 9 pieces**

- for perforating: rubber, metal sheet, leather
- material: 45 carbon steel
- with tube drawn
- hardness: 48 - 58 HRC
- dimensions in set: 2.5/3/4/5/6/7/8/9/10 mm

	Art.	Pieces
