# EVERYTHING AT YOUR FINGERTIPS

No matter if RoseBox, case or a sales display: Keil always offers a possibility to store your tools and to protect it from damage.

## ROSEBOX

The RoseBox is a tool cassette made of ABS plastic. It can be stacked and it is resistant against impact and breakage. In contrary to the classic metal cassettes the RoseBox does not rust and has no sharp edges. With its modern design it is a high quality storing box for professional tools.

## INDUSTRIAL PACKS/ RECTANGLEPACK

In contrary to the craftsman the industrial user continuously needs the same diameter. For this purpose we offer HSS drill bits and hammer drill bits with SDS-plus drive in 10 pcs./respectively 5 pcs. of the same diameter in plastic pack.

## CASE

We offer high quality plastic and metal cases equipped with premium tools for various fields of applications, e.g. HSS bi-metal hole saws, HSS drill bits or drill bits for ceramics.

## MULTIPACK

MultiPacks can be found for many types of drill bits out of our assortment. These packs are impact-proofed and space saving. Within the tool presentation in the shops drilling tools are noticeable due to its transparent material.

## SALES DISPLAY

The Keil sales displays provide presentation and storage of the tools with minimum space.
