

# MOBILE WORKBENCHES

- + Suitable for use in the production, maintenance, servicing areas.
- + The 30x30x1.5 mm box is profile framework and electrostatic powder dye coated.
- + On demand can peg boards, electricity panels, fluorescent lamps, vices, plastic bins be added to the benches.
- + It is possible to mount different cabinet alternatives under the carts.
- + The table tops are produced of pinotex painted 25 mm MDF plates and the plate tops can be rubber plate, galvanized sheet, stainless sheet according to the need.
- + The rubber sheets are fixed with galvanized L shaped brackets to the MDF.
- + The wheel set consist of 2 fixed, 1 swivel and 1 brake 125mm wheels.

## Side-by-side Combination

- + Depending on the need, multiple drawer module can be applied at a single module.
- + At side-by-side combinations, there are modules with drawer and door and single drawer and door available.
- + The single and multiple drawer modules inside the chassis can be used with wheels.

## Electricity Panel and Illumination Module

We provide at any module w/ drawers, doors, modules w/ chassis with the electricity panel and the illumination system the possibility to use your electrical tools in bright working environment.

## Use w/ Pegboard

There is the ease to use pegboards at any module w/ drawers, doors, modules w/ chassis.

## Use of Extension Cables and Vices

By using vices and extension cables at any module w/ drawers, doors, modules w/ chassis, we have provided the possibility for you to establish your working environment wherever you wish, without being dependant on a power cable.

## 3 Different Drawers at a Single Module

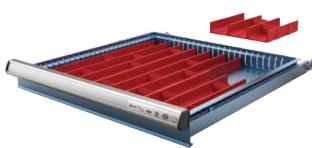

As not every tool you use will fit in the standard drawers, we have combined 3 different drawer models in a single cabinet and thus you will not need any other cabinet for your tools and materials of different sizes.

## 4 Different Drawers at a Single Module

As not every tool you use will fit in the standard drawers, we have combined 4 different drawer models in a single cabinet and thus you will not need any other cabinet for your tools and materials of different sizes. We have generated working stations in a single module by 4 different cabinets w/ wheels, either w/ pegboard, or illumination and electricity module.

The most important advantage of our products in the tool carts group is that they provide an ergonomic and practical usage thanks to their small dimensions. Tool losses are kept at least level with the storage of the tools in the drawers. Our products are generally preferred in the automotive service sector and in the maintenance and repair departments of plants. This group includes alternative models with drawers, shelves and many other features.

Our tool carts of the series 8100, generally preferred by the aviation sector, are offered for your usage as models with 5, 6 and 7 drawers. These have technically the same features as the other tool carts.
