User's Guide

Ground Adjustable Ball Joint Feet

Drawer Module

The modules with 3 drawers you can order at the distance you wish inside the cabinets, are suitable for the storage of small spare parts and materials.

Adjustable Shelves

The bottom of the galvanized shelves, adjustable in steps of 50mm, can be set in the desired distance.

Cabinet Intern Pegboard

You can store your hand tools on our pegboards in the cabinets. We have combined both drawers, shelves and pegboards in the same cabinet.

Plexiglass Door

Thanks to the plexiglass doors of the cabinets, you can see the interior of the cabinets w/o opening the doors, reach the interior order easily.

Sliding Doors

Our cabinets w/ sliding doors are suitable for narrow spaces and can have plexiglass or sheet doors. Security is provided with the press locks.

Doors w/ Pegboards

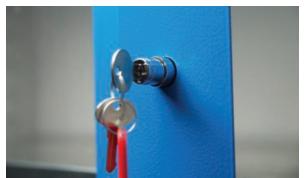

The pegboards at the doors allow that the desired tools can be hanged on w/o occupying additional space in the cabinets.

The storage, care and security of tools, spare parts and consumables is very important at production lines and small facilities. To find that what you search immediately saves time and increases the efficiency.

As KOCEL A.S., we have paid attention at the production of material cabinets on that they are multifunctional and modular. You can use our cabinets as a material cabinet, tool cabinet, spare parts' cabinet or file cabinet and you can collect all in one cabinet according to your need. When one day, your subject or business field should change, you can continue using our cabinets according to your new production.

HANGER FILE CABINETS

At the design of the file and folder cabinets, our aim was to ensure that you can store your files, official or important documents easily and orderly and thus not experience any document loss problems. We have produced card index cabinets for your hanging files, file cabinets with doors for your folders, cabinets with sliding doors for our customers with limited space, without door distance, compact railed archive cabinets for our customers working intensively with documents and are not able to perform a separate archiving. In addition, these types are shaped according to the needs: card index cabinets with 2 to 5 drawers, file cabinets up to 1200mm and 2000mm, and compact systems according to your space and the amount of your files are only some of these.
