

# INDUSTRIAL CABINETS

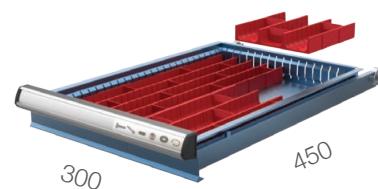

- ✚ These are welded, have a stable 1.20mm steel sheet construction and are electrostatic powder dye coated.
- ✚ 4x vertical rail guide studs inside the cabinets..
- ✚ The silent operating drawers have a load bearing capacity of 80 kg at a single drawing of 98% and there are prefabricated, punched channels in all drawers.
- ✚ The drawer height can be varied at steps of 25 mm and it is possible to create diverse drawer combinations with metal separators according to all drawer heights. The E standard of the drawers is 1E=17 mm.
- ✚ The rails are 2.5 mm, 6201 zz ball bearings.
- ✚ The doors can be opened by 180° and have a cylindrical safety lock with 2 keys and embedded handles.
- ✚ There are round edged, embedded stripe channel, eloxal aluminium lugs and plastic taps on the lug heads.
- ✚ The shelves have a bearing capacity of 80kg and can be adjusted in steps of 25mm.
- ✚ They include to the ground adjustable M12 screwed chocks.

# TIDYING CABINETS

## LinBins at Doors

⊕ We have applied hanging linbins to the doors in order to use the inner volume of the cabinet more effectively.

⊕ The linbins of the series A100 are suitable for being used at the doors. They provide ergonomic usage ease when the doors are opened.

## Openable Inclined Covers

⊕ Beside that the openable inclined covers at these products can be used as writing tables, the inner of the covers have enough space for materials like folders, laptops, notebooks.

## XXL, M, XS Drawers

⊕ We have collected 3 different drawer models in a single cabinet or different needs. No matter if XXS, M or XS.

## Pegboard Doors

⊕ You can hang your hand tools and materials on the pegboards at the doors in order to use the inner volume of the cabinets more efficiently.

## Cabinet w/ Pegboard

⊕ You can store your hand tools on our pegboards in the cabinets. We have combined both drawers, shelves, linbins and pegboards in the same cabinet.

## Adjustable Heavy Shelves

⊕ The height adjustable shelves at these products are suitable for the storage of materials up to maximal 120kg.

⊕ The shelves are galvanized and extreme durable against oxidation and wear.

These are designed as a drawer or shelf group with 3 separate sections, suitable for different usage purposes in the same cabin. The advantage of this model is that it can be used for different usage purposes by the varying sizes of the drawers. The shelf heights of the cabinets can be adjusted according to the demand. Beside this, there are M12 to the ground adjustable ball joint feet and latches are used at the doors.

# CHEMICAL STORAGE CABINETS

- ✚ These are wing-door cabinets.
- ✚ They are used for the storage of chemical and liquid materials (not for flammable or explosive materials)
- ✚ The housing is made of 1,20 mm sheet (7465 and 7470) or 0,80 mm sheet (7455 and 7460). Welded, stable steel construction, electrostatic powder dye coated.
- ✚ Height adjustable shelves.
- ✚ 3 point locked, secure, qualitative locking system.
- ✚ The cabinet doors have a perforated area for air ventilation.
- ✚ The doors can be opened by 180°.
- ✚ The cabinets with the code No. 7460 and 7470 include a mobile shelf and a 30mm steel grid at the bottom
- ✚ There is an oil collection tray at the very bottom of the cabinets. The shelves have a bearing capacity of 80 kg.
- ✚ The shelves at the cabinets with the code No. 7455 and 7460 are the shelves bent up like a pool and are tight, the shelves have a bearing capacity of 60 kg.
- ✚ All cabinets have M12 screwed ball joints at the bottom for ground adjustment.

According to the Occupational Health and Safety Code, there need to be efficient and sufficient fire extinguishing equipment at the workplace depending on the size of the business, the nature of the works, the chemical and physical properties of the materials used and the number of the employees. Beside this, the code mandates that the fire extinguishing equipment shall be placed to visible and accessible locations and that there are no obstacles in front of them. Our fire equipment cabinets with 180 degrees openable doors, height adjustable shelves, and international standards complying red colour will ensure the instant access of the employees to the equipments in an emergency case.

# FIRE RESISTANT HAZARDOUS MATERIAL CABINETS

## Fire Resistant Wick

Thermo sealed, heat sensitive gaskets swell with the influence of fire and prevent that heat enters inside.

## Dye

No flammable, not smoking, at 700° on the surface to ash converting and decaying electrostatic dye.

code**6900**

code6900	↔	+	KG	KEY
Fixed Shelf	940x530	5	5x80	-
Cabinet	1100x660x2150	-	-	w/ Latch

## Air Discharge Funnel

Galvanized funnel system with spring mechanism with a diameter of 120mm, closing itself automatically at 70°.

## Door Closer

They have a thermo fuse and are equipped with a door closing mechanism. These ensure that the doors are automatically closed when the temperature reaches 50°. (EN 12467)

## Lock w/ Cylinder System

L: 45mm square based lock system w/ cylindrical key is available. Both doors can be locked with a single lock. Magnet: Neodymium pot with a diameter of 38mm, magnet resistant to 80° are used. Ensures that the doors are trouble free closed.

## Leakproof Galvanized Pool Shelf

These are pool type shelves, which can be adjusted in steps of 50mm, bear a load of 80kg when homogeneous distributed, and are leak proof, stainless.

## Handling Base

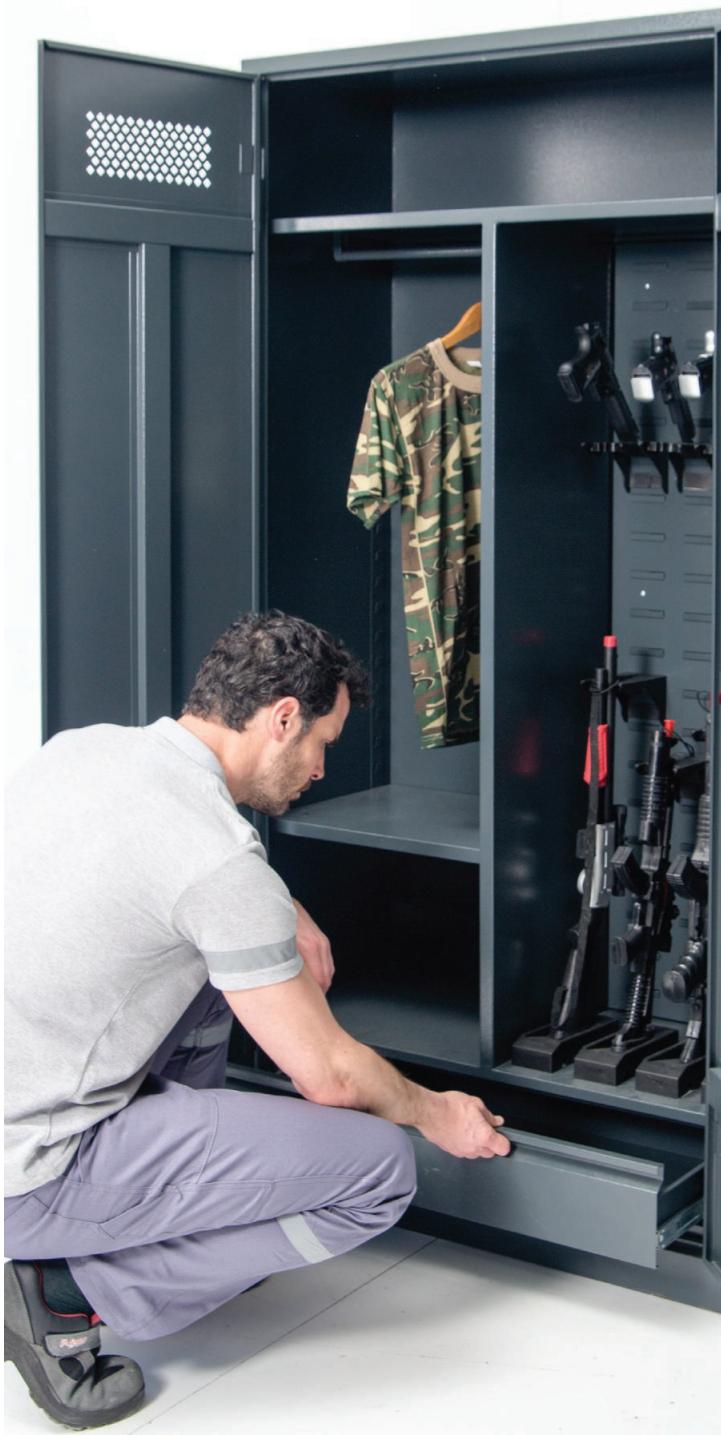

There is an integrated, liftable base, and a screwed skirting for closing the base.

## Heat Insulation

A special insulation material is used between 2 panels in order to prevent heat transition.
