

CNC TOOL CABINETS

- + We have models able to be used fixed or mobile, depending on the request.
- + These are high quality cabinets, appropriate for the storage of small materials and provide an easy access.
- + They can be used for SK 30-40-50 morse tapers and for HSK 16-32-40-50-63-80 tapers.
- + We have a special fixed CNC plastic for HSK 100.
- + We have a special CNC plastic suitable for CAPTO C3-C4-C5-C6-C8.
- + These are welded, stable, steel sheet construction and coated with electrostatic powder dye.
- + The silent operating drawers have a load bearing capacity of 80 kg at a single drawing of 98% and equipped with a high safety, two key central locking system.
- + There are prefabricated, punched channels in all drawers. The drawer height can be varied at steps of 25 mm, it is possible to create diverse drawer combinations with metal separators according to all drawer heights.
- + The rails are X.5 mm 6X01 zz ball bearings and the E standard is 1E=17mm.
- + They include to the ground adjustable M1X screwed chocks.
- + The doors at the models with doors can be opened by 180°.
- + There are round edged, embedded stripe channel, eloxal aluminium lugs and plastic taps on the lug heads.

Plastic Separators

- + Our plastic separators are 3 or 4 channelled and prevent the ordering of any type of cutting and wearing tips and that they contact and magnetize.
- + Barcoding and labelling is possible by the labels on the front side.
- + They provide the possibility to store materials with a length between 10mm-900mm.
- + Materials of different sizes can be placed in by arranging the separators in the width and length.

Metal Separators

- + The metal separators can be adjusted from the front to back in steps of 17mm to the desired distance thanks to the E standards complying channels at the sides of the drawers and from left to right in distances of 150mm and 200 mm.

CNC Holder Drawers

- + There are applications for CNC holders at the drawers of the sizes of 450X450mm, 600x600mm, 450x900mm.
- + Drawers with special CNC holders from 300mm to 600mm can be applied.

✚ Our hauling carts with CNC holders are products suitable for being used beside CNC processing benches and also benches, where production with turnings is being performed.

✚ The products are coated with electrostatic powder dye and the wheels have a bearing capacity of up to 200 kg.

✚ These are products, which can be adjusted according to HSK, ISO SK, CAPTO holders.

✚ Thanks to the square holes on the lateral side of the products, it is possible to adjust the CNC holder sheets in an angle, plane or the height you desire.
