MAXIMAL UTILIZATION

Plastic Separators

- + Our plastic separators are 3 or 4 channelled and prevent the ordering of any type of cutting and wearing tips and that they contact and magnetize.
 - + Barcoding and labelling is possible by the labels on the front side.
 - + They provide the possibility to store materials with a length between 10mm-900mm.
 - + Materials of different sizes can be placed in by arranging the separators in the width and length.

Metal Separators

- +
 - The metal separators can be adjusted from the front to back in steps of 17mm to the desired distance thanks to the E standards complying channels at the sides of the drawers and from left to right in distances of 150mm and 200 mm.
 - All parts are folded twice and produced by press folding with consideration on occupational safety.

CNC Holder Drawers

- + There are applications for CNC holders at the drawers of the sizes of 450X450mm, 600x600mm, 450x900mm.
 - + Drawers with special CNC holders from 300mm to 600mm can be applied.

✚ You can convert the inner of the drawers most suitable for your usage purposes by utilizing one or more of the CNC holder, plastic box, channelled plastic separator or metal separator options.

Voluminous Materials

Organized Drawers

Professional Labelling

✚ There are mobile shelves for voluminous materials not fitting into the drawers.

✚ It is safe and appropriate to use the mobile shelves in cabinets with doors.

✚ The interior of drawers consist of 150mmx150mm and its folds. (300X450mm, 600x600mm, 450x600mm etc.)

✚ Our plastic boxes of the size 150x150mm can be divided into 2 or 3 or 4. (Sizes of 150x150mm, 150x75mm, 75x75mm can be provided)

✚ Allows you to find the materials in the drawer easily.

✚ You can create the labels according to your needs with the label printing software.

✚ The wearing of the labels is avoided by the transparent coating on it.

✚ The labels are easily inserted and removed by removing the plastic taps at the aluminum grip heads of the drawers.

Maximal Utilization

- ✚ Maximal utilization space and access to the materials at the very back is provided by the 98% extension of the drawers.
- ✚ The drawers have a bearing capacity of 80kg at an extension of 98%.

Easy Archiving

- ✚ Assisting drawers at the archiving of your hanging files.
- ✚ There are telescopic and normal railed options available.

Different Design in Common Spaces

- ✚ A single drawer may be converted suitable for different usages by dividing it with plastic boxes, metal separators or plastic separators.

Sturdy Bottom

- ✚ At drawers with a broad bottom is stability provided with a special form placed at the lower bottom in order to avoid bending downward.

XXL, L, M, S, XS

- ✚ We have collected drawers in different sizes by combining them for different needs.

Different Solutions

- ✚ We ensure the storage and easy usage of small part materials in your working environment w/o messing them.
