## GT-MAX Roller Cabinets

The ultimate in tool storage

We believe the ultimate in hand tools deserves the ultimate in tool storage. Therefore after endless hours, weeks and months of research and many user interviews we have developed the new GT-MAX roller cabinet series.

This range addresses even the most diverse user needs in the typical Ceta Form cabinet build quality. As you flip through the catalogue, you will see a lot of variants for different user profiles. The cabinets can also be fitted with a selection of CFS tool modules larger than ever (pages 40 - 56) and a range of accessories ((pages 28 - 29).

Experience the new dimension in tool storage by yourself.

### SAFE

Three-staged locking system prevents tilting, unintentional opening of drawers and secures the tools.

### VERSATILE

6, 7 or 8 drawers? Standard body or Jumbo body? Your preferred color configuration? All possible in the GT-MAX range.

### ADAPTABLE

Euro perforated side wall and a large range of accessories allow for a totally custom-built cabinet. CFS tool module system for the final touch.

### TOUGH

Torsion resistant profile construction from heavy gauge steel and plastic protection on all corners against impacts.

For purchase quantities of 5 and more, we can manufacture in your corporate colours (please indicate the RAL code)

# Comparison of Features

## CETA FORM Tool Modules

Traceability and efficiency at its best

Today's complex MRO and manufacturing environments require intelligent tool storage systems. Particularly in aerospace and automotive industries, this necessity is even higher.

The Ceta Form Foam System (CFS) addresses these requirements in a perfect way. It ensures that no tool is left where it may pose a security risk. Therefore the highest degree of traceability and efficiency is guaranteed.

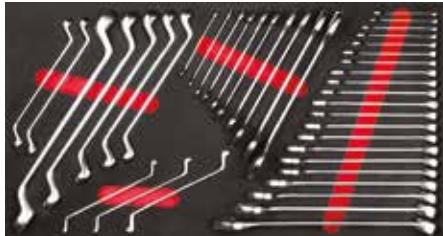

Get organized and have full control over your tools with CFS tool modules.
