

- + Used to keep mounting materials ready at production lines.
- + The mobile and fixed racks are screw and spare part stands.
- + The 30x50x2 mm box is profile framework and electrostatic powder dye coated.
- + The bins can be ordered both sided and used with a higher capacity, whereby the bin sizes are indicated in the images.
- + The plastic bins of our products are made of high quality polypropylene (PP).

LinBins are boxes in different sizes and colour made of polypropylene material and can also be named as storage boxes with open front. Even if the usage purpose of the boxes may vary, these are generally used in order to store assembly materials like screws, nuts and washers. Taking into consideration that we have customers from very different sectors, we have designed linbins able to suit every business and every sector. Beside fixed, unidirectional boxes in different sizes and colours, we have also produced bidirectional, wheeled models and have applied hanger panels to the same model. We wanted that inclined shelves should be able to be used at the same models for assembly materials that would not fit into boxes. Thinking of that pieces could be stored in these boxes, that shouldn't be lost, we have adapted the linbins into cabinets with lockable doors.

Pegboard

Pushing Handle

Wheeled

**Bidirectional Wheeled Stand**

Suitable to keep more assortment and a more boxes at the working area.

Unidirectional Fixed Stand

Suitable to be used wall mounted, unidirectional fixed.

LinBin Stand w/ Pegboard

When you mean that both your screws and your tools should be at the same place, then is this product the one you need.

- + These are suitable to be used in any type of working areas for assembling, servicing, maintenance, production, R&D.
- + Electrostatic powder dye coated.
- + The drawer combinations under the benches can be manufactured according to the demand.
- + A pegboard, power bar, fluorescent lamp, vices can be added to the benches.
- + The table carcass is manufactured 6 folded and the feet and connection arms are manufactured of 2mm sheet..
- + The tops of the benches are made of pinotex coated 25 mm MDF plates and the table top can be furnished with rubber sheet, galvanized sheet, stainless steel sheet according to demand.
- + The rubber sheets are fixed with galvanized L shaped brackets to the MDF.
- + The feet are welded and the intermediate coupling is made with bolts. There are rubber shoes at the feet, holding from the sides, in order to prevent scratches of the ground.
