CETA FORM Wrenches

Precise, Tough and Elegant

100%

PRECISE

All Ceta Form wrenches are broached to very tight tolerances. In the later stages of production, necessary efforts are given to ensure that these original tolerances are kept. Therefore either open-end or ring, all wrenches tightly fit the fasteners.

VERSATILE

From open-end to ring-end, E-TORX to flare nut, metric to imperial a large range of variants are available throughout our wrenches range. You will find what you are looking for.

TOUGH

Only premium quality, crack-controlled steel is used during the forging. Coupled with the deep heat treatment know-how of Ceta Form, all Ceta Form wrenches are guaranteed to withstand against higher torques than the DIN.

Most Ceta Form wrench sets are offered in new high quality tetron pouches

C GEAR Wrenches

Ideal for working in confined spaces, C-Gear wrenches enable the user to work on a nut/bolt without removing the tool to reposition it.

B05 Series

The standard model. A compact ratchet spanner combined with an open-ended spanner.

B06 Series

The flexible model. For even more confined spaces, the pivoting flexible ring end allows for 90° operation.

Combination Wrenches

B01 Series

Combination Wrenches

DIN 3113, TS ISO 7738

B21W Series New Adjustable Wrenches

Professional quality adjustable wrenches with extra wide jaw opening

SLIM

The slim and tapering design of the jaws makes it very easy to access restricted areas. Thanks to the premium material selection, the jaws are still very durable despite compact dimensions.

200 mm - 8"

ERGONOMIC

The softgrip ergonomic handle allows for a good grip and ensures fatigue free working for long hours.

EXTRA-WIDE

Extra-wide opening capacity makes it possible to work with a smaller tool for the same job. For instance the jaw capacity of this tool (200 mm long) is equal to that of a 300 mm long adjustable wrench.

B21 Series Adjustable Wrenches

- Adjustable jaw set at 15° for easy repositioning
- Ergonomic design for easy handling
- mm scaled
- High alloy tool steel
- PVC Sleeves

B21-B Series

Adjustable Wrenches (Phosphated-PVC Grip)

DIN 3117, TS ISO 6787

B21-C Series

Adjustable Wrenches (Chromed-PVC Grip)

DIN 3117, TS ISO 6787

B21W-200B

Adjustable Wrench (Wide Opening Jaws)

DIN 3117, ISO 6787

Extra wide opening jaws, slim head dimensions for access to confined spaces

For display carded delivery = Item code + X

Available for sizes between 1.3 - 10 mm

C Plus

Softgrip T-Handle Hexagon and TORX Keys

- Chrome-Vanadium-Molybdenum steel
- Matt chrome plated blades
- SAE keys: Gunmetal finish
- High-torque softgrip handles
- For sizes bigger than 3mm, chamfered tips allow easy fitting into hex screws

The individual keys can now be offered on plastic hangers, ideal for self service sales points. Simply add a letter "X" to the original code for display packed delivery. Available for L, 800 and 900 series.
